

TOWARDS A SAFE, NATURAL FORECARING

Date : 6th–7th October 2012

First World Hotel
Genting Highlands
MALAYSIA

*Overcoming The Iatrogenesis
And Shortcomings Of
Allopathy*

*Putting Back The Natural
High Touch Healing Into
Medicine*

*Downsizing Chemical
Therapeutics And Reducing
The Adverse Side Effects
Of Chemical Drugs*

Aims and objectives of the Conference

1. The presentation of the holistic epistemology (theory of knowledge) of modern scientific natural healthcare and medicine.
2. Presentation of truth-based outcome driven healing studies using highly active micro-nutrient formulae in the management and prevention of illness with scientifically documented case studies, case stories and live testimonies.
3. Presentation of the holistic body of educational knowledge for modern non-invasive natural healthcare and medicine.
4. Comparative analysis of modern allopathy and modern natural medicine from healing and iatrogenic point of view (Malaysian perspective).
5. Performance review on the allopathic management of diabetes mellitus type-2 by Ministry of (Allopathic) Health.
6. Presentation of healing protocols, natural nutritional and natural medicinal products used for the management of illness.
7. Presentation of educational and business opportunities in natural healthcare and medicine.

OVERSEA REPRESENTATION AT THE 1ST SCIENTIFIC NATIONAL CONFERENCE ON NATURAL HEALTHCARE AND MEDICINE

The ambassador of French Guinea
Mr. Mohd Sampil and his wife

From Nigeria, Africa, Dr. John Yaks MBBS

From the United States of America,
Allopathic Doctors John Gilbert
and Melissa Haynes

Homeopathic Doctor Mr. Athmanathan from
Sri Lanka

Students participation from the African Nations

Mr. Mark Rogers of French origin from "Positive Living Community Home" Batu Arang, Selangor

OVERSEA REPRESENTATION AT THE 1ST SCIENTIFIC NATIONAL CONFERENCE ON NATURAL HEALTHCARE AND MEDICINE

Naturopathic/Homeopathic Doctor, Dr. Norbert Possel from Germany

Naturopathic Doctor, Dr. Madhumita from India

Local Professionals

Reflexologist
Dr. Aziz

Dr. Devi Karuppiah,
President of the Malaysian Association of
Complementary & Traditional Medicine

Nutritional Therapist
Mr. Goh Pit Min

Presenters and their Presentations

Professor Dr Ananthan Krishnan, a Naturopath and a Pharmacist has put Malaysia on the world map of Natural Therapies, by creating the world's first remedy for Dengue & Dengue Haemorrhagic fevers. This declaration is the highlight of the First National Scientific Conference of Natural Medicine & Health Care organised by the Malaysian Association of Natural Medicine Practitioners, (MANMP). The cure is a result of extensive research and real time patient trials over several years. The formulae used are food based, totally non invasive, organic and with practically no adverse reactions. Reversal of Dengue symptoms and blood changes appear within 24 to 72 hours and patients do not go to the secondary complications of dengue infection.

Dr. Padmanayaki Pillai BDS and Naturopath on the Use of Highly Active Micro-Nutrient Products in the Healing and Prevention of Dengue Fever, a five year study report. Truth based study report on the Healing of Dengue fever.

Naturopath Mr. Vasanda Kumar on the Use of Highly Active Micro-Nutrient Products in the Management and Prevention of diabetes Mellitus Type 2 in Malaysia, with Case Study and Case Story reports with live testimonies.

Dr. Parasakthy Sathasivam MBBS, on the Use of Highly Active Micro-Nutrient Products in the Healing of Pulmonary Fibrosis, Case Story of Madam Kamalam and Madam Panjavarnam, with live testimonies.

Presenters and their Presentations

Naturopath Doctor Lai Yoon Kgen, on Critical Factors in Human Health and Wellness and the role of Natural Healthcare Products in the Prevention of illness

Dr. Agilan MD, on the use of Highly Active Micro-Nutrient Products in the Prevention and Management of Cardiovascular illness

Exhibitors

&

NutraWell

United Global Network

Medicine

Basic Health & Beauty

Herbalife

Live Testimonies

Prof. Dr. Ananthan Krishnan, believes a cure for HIV infection is no longer a scientific impossibility but a realistic goal that scientists could reach in the very near future. It may not be necessary to completely eradicate the virus in the individual. The HIV virus can be naturally controlled, such that their risks of disease progression and transmission are minimal or at least to a point where progression to AIDS becomes unlikely. This has been proven through extensive clinical study research and integrated therapy on HIV positive patients by Prof Dr Ananthan Krishnan, a naturopath and a pharmacist at his clinic, AK Pharmacy & Naturopathy Center. The patients are now been free of readily detectable virus. In other words they are cured.

How SBCV (MAS AYU) formulae gives back health and saves HIV Patients without any side effects

Taming the Virus Naturally

Mr. Zainudin Ahmad developed signs and symptoms of AIDS in 2000. Started on HAART in 2001, he started to lose weight, distorted fat distribution, decrease in sexual desire, and body was in its weak diseased state. After being treated with the SBCV (MAS AYU) formulae for over five years he had blossomed with new strength and vitality. His viral load is undetectable and no signs and symptoms of AIDS were noted since then.

Mr. Nizam with Shahrudin and Ika, all three having fully recovered from HIV/AIDS.

A sure sign of strength and vitality after being treated with the SBCV formulae. Mr. Pachamuthu currently on dialysis is experiencing a new life through Natural Therapy.
